## ROAD BILL EXPLANATION BY OLSON

State Senator Olson of this District Shows how Bill did Not Jeopardize Jobs

### COMMISSIONERS ARE SAFE

If Said Bill Had Become a Law, or Ever Does, McHenry, or Any Other County Need Not Have a Superintendent

In a communication to the Woodstock Republican, Senator A. J. Olson, of McHenry county, also Lake county's Senator at Springfield, explains at length his position regarding house bill 175, which passed the Senate and last in the House, a measure which plans the creation of the office of county superintendent of roads for counties that desire such an official. (An official which every county in the state is badly in need of and which will be an absolute necessity before Illinois gets roads to compare with other states. It is now far behind most of them.)

Mr. Olson's explanation of this bill, which is sure to come up before the next Legislature, is interesting and important to Lake county, showing as it does, that it is optional with the county whether, providing the law passes, the county desires to hire such a superintendent or not.

We quote from Mr. Olson's communication the salient references, as follows:

The road commissioners must understand that it was never intended to do away with their office in bill No. 175. The county superintendent of roads would have to know enough about engineering work to pass a state examination and the idea that I received was that the county superintendent of each county was to confer with the superintendents of other counties and to make the road system of one county as nearly uniform as possible to the other counties.

Now, if said bill had become a law, or if it ever does become a law in the future, McHenry, or any other county, would not have to apply for a county superintendent unless they wanted one. They could sit by and take notice of how the other counties were getting along, whether they were progressing faster and better than we were, or in other words be a standpatter on the old system and let those counties which wanted a superintendent go along on the new system, and it would show within a year or so which counties were progressing, and if the counties which had the superintendents were getting along better, then there would be no doubt but what McHenry county would adopt the new system, but if the counties with the superintendents were not getting along as well as those counties without superintendents then it would not be necessary to change. This, in my mind, seems perfectly fair, and that anybody could find fault with such a bill, leaving it optional with the counties themselves seems ridiculous.

I would certainly be against any proposed legislature that would increase the taxes of the farmer one penny for road purposes, as they are now paying their proportionate share, but the large cities—Chicago, as well as others—and automobile owners have realized the fact and want to help in road building, either by general taxes, or by auto tax, or both. It is different today than it was prior to the times that we were not running automobiles. The city people use our roads as much as we do, and they are agreeable and are not kicking about the taxes that we are putting upon them, but they do claim if they are to spend their money on the roads that they want a voice as to how that money shall be spent.

McHenry county could apply for a superintendent, providing they saw that the other counties which had superintendents were doing so much better. Consequently there would be nobody hurt by this bill. It would leave the superintendents absolutely in control of the situation and it would not do away with the road commissioners, but would continue that office as before. The county superintendents would be paid out of the state treasury from the road and bridge tax, and if there was not sufficient money in the road and bridge tax fund then they would be paid out of the personal fund.

I personally believe it should all be paid out of the general fund, if that could be arranged.

## OLD CITIZEN PASSES AWAY

Richard Martin Died on Friday at the Advanced Age of 87 Years

Richard Martin, one of the aged residents of this community, who, since the death of his wife three years ago has made his home with Mr. and Mrs. Andrew Lynch just east of town, was on Friday morning of last week called upon to answer the summons of death. For many months he has been rapidly failing and almost entirely unable to care for himself but was confined to his bed for only a short time, his death being due to the natural breaking down of advanced age.

The deceased was born in Wexford county, town of King, Ireland, on Aug. 15, 1825. There he grew to manhood and there he was married, about fifty-three years ago. Shortly afterwards with his wife he came to America and settled for two years in the state of New York, then coming to the state of Illinois they settled on a little farm near Leona Lake where they resided for over forty years, before disposing of it and purchasing a home in this village where they lived about four years, until Mrs. Martin was taken away.

The funeral services were held Sunday morning at nine o'clock at the St. Peter's church. Interment in Mill Creek cemetery.

## MEETS DEATH ON RAIL

Thomas Schaafsman Was Killed by St. Paul Engine at a Chicago Crossing

Thos. Schaafsman well known in this community was instantly killed at the Mayfair station in Chicago, when he was hit by a fast train at that place, New Years day.

When picked up it was found that his neck was broken and one leg was severed from his body. A letter in his pocket gave clue to his identity and relatives at this place were communicated with. They at once hastened to the scene of the accident and arrangements were made to bring the body back to Antioch. It arrived on the 3:15 train Saturday afternoon and was taken to the home of his daughter Mrs. Smith on Orchard street where the funeral was held Sunday afternoon at 1:30 o'clock burial at Hickory cemetery.

Mr. Schaafsman was born in Holland, Feb. 16, 1855, and came to America 28 years ago. In the year of 1885, at La Fayette, Ind., he was united in marriage to Miss Helen Shepard, who passed away in December, 1906. To them eight children were born, six of whom, two daughters and four sons still survive.

## CAN VULCANIZE A TIRE WHILE GOING 30 MILES AN HOUR

Carl A. Pfannstiel of North Chicago has just invented a device which he thinks will be one of the most important to automobilists which, according to Mr. Pfannstiel, will permit of a tire being vulcanized while an automobile is traveling at the rate of 30 miles an hour.

All that is necessary, according to Mr. Pfannstiel is to change the inner tube, place a little para rubber over and around the puncture, attach the Electric Vulcanizer to the battery in the car, start the car and in 15 minutes the tire is vulcanized, not while the autolst waits, but while he is whizzing along the highway. Automobile experts who have seen the device are said to have been very enthusiastic over the possibilities. It is said the vulcanizer can be sold at a nominal price.

It is claimed that the biggest argument in favor of the device is that it allows an automobilist to do his own vulcanizing, to prevent tedious waits in a garage and make it necessary merely to carry one or two extra inner tubes even on the longest journey. The average man would be skeptical about the ability claimed for the little vulcanizer but Mr. Pfannstiel unhesitatingly declares it will do all he claims for it.

## LARGE TRACT OF LAND WILL BE BOUGHT BY NORTHWESTERN

Officials of the Chicago & Northwestern Railway company in Kenosha have closed a deal for the purchase of a large tract of the village of Berryville, just north of Kenosha. It is said the thousands of acres are to be the site for model car shops, which ultimately will take the place of those in Chicago. The land is regarded as among the best factory site on the North Shore. It is midway between Kenosha and Racine, and fifty-five miles out of Chicago.

## COST PER CAPITA FOR POOR

Lake County Expended \$15,229 for Relief of Poor in One Year

### STATE CHARITIES REPORT

Supervisors Promise to Curtail Expenses in 1913; Outline Many New Plans for Coming Year

Lake county expended \$15,229.95—a per capita of 27½ cents—for the relief of poor persons outside of the institutions during the year ending September 1, 1913. The sum includes relief to and the burial of indigent soldiers, and the care of the sick.

The supervisors issued all orders for relief, these orders are usually filed in the office of the county clerk and audited together with the claims presented by the poor committee. This committee reports the claims to the board of supervisors, with the total for each township and the total for all the townships. No yearly statement of expenses is made by the clerk to the board.

Eleven thousand, five hundred dollars were appropriated during the past year for the relief of blind persons in the county. The practice of pensioning blind at \$150 a year has been discontinued.

The names of the poor people relieved are not published in the papers.

Dr. Brown, county physician, received \$2,000 a year for attendance upon the jail and the poor of Lake county. He furnishes medicine and cares for patients whom he considers it necessary to remove to the Jane McAllister hospital.

At a recent meeting, the board members voted to allow all hospital bills up to \$500. In other words the Jane McAllister hospital will receive \$800 a year for allowing the county's poor bed space in the hospital.

The pesthouse on the "flats" is used for contagious diseases. The city of Waukegan has recently paid the bills of smallpox patients, but an effort is being made to regain at least a portion of the expenditure.

The facts noted above were gleaned from the second annual report of the state charities commission, which was published last recently and presented to Hon. Charles S. Deneen, governor of Illinois. The report was published on Dec. 31, 1912.

Recently Chairman Clarke of the board of supervisors was appointed to take charge of the indigent soldiers and sailors of Lake county. It is the belief of the board members that the appointment of one person to look after the indigent soldiers and sailors will curtail the expenses materially in years to come. It will be his duty to arrange for the burial of the poor, both sailors and soldiers, and he will likewise be compelled to take care of them during life.

The members of the board are unanimous in the belief that the expenses of the poor of the county will be cut down materially during the ensuing year.

## WELL KNOWN COUPLE ARE MARRIED AT WOODSTOCK

A wedding event, the news of which will come as a surprise to many Genoa Junction people, took place at Woodstock Saturday last, the principals being Miss Mildred Drom and Andrew Yanny. The bride is the daughter of Mr. and Mrs. F. A. Drom and for some time past has been employed as operator in the telephone exchange at Richmond. The groom is one of the best known young men of this community. Both are popular with a wide circle of friends from whom will come sincere good wishes for their future happiness. The young couple are enjoying a visit with relatives in town before leaving for Racine, Wis., in which city they will make their future home.—Richmond Gazette.

The bride was at one time a resident of Antioch where she has many friends who wish her much happiness.

## SEARCHLIGHTS ARE USED

Men With Guns and With the Help of Powerful Lights Watch Sign Boards

Powerful searchlights trained upon Voliva's six large sign boards in Zion City, with men hidden sharpshooters, armed with Winchester on guard day and night, has solved the sign board war in Zion City and explains why the anti-Voliva people have left the big signs severely alone for some little time.

Before Voliva hit upon this plan his sign boards were destroyed repeatedly and it was necessary for him to go to considerable expense to rebuild them. Acting under cover of darkness his foes were able to destroy the big signboards whenever their fancy suited them. Several times they drilled holes in the supporting posts and allowed the big boards to fall over from their own weight. At other times the signs were literally smashed to pieces.

It is said that Voliva got his idea of defending his signs when a few weeks ago some of his followers surprised a number of his foes in the act of destroying one of the sign boards. They opened fire on them and two or three were injured. No one could figure out where the shots came from, but there was a great scurrying for cover when the shooting commenced.

Since then Voliva has improved upon the plan. He has secured powerful searchlights and one of these is trained upon each sign board all night long. Nearby some of his followers, armed not only with Winchester, but with shotguns and automatic revolvers, keep up a sleepless vigil, their orders being to open fire upon anyone who seeks to molest the signs.

## DEATH IN EVANS HOME

Glady, Daughter of Mr. and Will Evans, Passes Away Sunday Morning

Last Sunday morning at 10:30 o'clock the Angel of Death again hovered over the home of Mr. and Mrs. Wm. Evans of Trevor and descending took from them their eldest daughter, Glady, a young lady fifteen years of age on the 28th day of last December.

As will be remembered on the ninth day of November the girl accidentally caught fire to her clothing while putting hickory nut shucks in the stove after having picked out the meats preparatory to make a birthday cake as a surprise for her mother, who was that day in Chicago. At the time of the accident it was realized that the victim was severely burned, but the physicians held out every hope for her recovery, and it was thought that the wounds although covering considerable surface were not deep enough to prove serious.

As time went on she seemed to be gradually gaining and while no great strides toward recovery were noticeable it was plain that the wounds were slowly but surely growing smaller each day, and those about her never lost hope until last Friday night when new symptoms developed and hemorrhages of the bowels commenced from that time on her condition was critical and despite every effort to relieve her suffering she passed away Sunday morning.

The funeral services were held Wednesday afternoon at the home at one o'clock and at the Liberty church at two o'clock, burial in the Liberty cemetery.

## COUNTY BOOKS WILL BE AUDITED BY STATE IS PLAN OF LAW

A state examiner to audit the accounts of all county officers will be provided for in a bill to be submitted to the next general assembly by the special legislative committee named at the last session to inquire into the road improvement and kindred subjects.

The bill will provide that the officer to be appointed by the governor, shall have jurisdiction over the accounts of all county officials in the state. He will cause an examination of the books at stated intervals and will issue certificates showing that the books are correct.

Daily Reminder. Know thyself! If you are mediocre take your medicine. In human affairs no legislation will ever make it possible for the tail to wag the dog.

There Are Compensations. "This increased cost of living is something terrible!" said the young man as he paid the third installment on the engagement ring.

## USES OF SULPHATE OF IRON

It is Claimed to be of Great Value in the Treatment of Diseased Livestock

### IS POWERFUL DISENFECTANT

Its General Use It is Claimed Would Be a Boon to the Farmer and Stock Raiser of the Entire Country

Much is being said just now about disease among live stock and especially among hogs, and reports have recently been circulated that farmers in the western part of Lake County and in McHenry county are suffering heavy losses due to some mysterious disease that has played havoc among their hogs. In some instances it is reported a single farmer has named up his loss in the neighborhood of about two hundred dollars. In view of all this we think that the following article may be of some use to those who wish to prevent an invasion of disease as well as a help to those who are in search of a relief.

The sulphate of iron therein mentioned is the same as what is commonly known as copperas and it is prepared as follows: Soft coal; 1 shovelful, salt; thin layer over coal, sulphate of iron; thick layer over salt.

Pawnee City, Neb., October 10th, 1912, American Steel & Wire Co. Chicago, Illinois.

Gentlemen:—

Your inquiry as to what use we put the Sulphate of Iron to hits a big proposition and we take pleasure in informing you as to our idea on this subject. Hog raising is a proposition that grows larger every year. The pests such as lice, mange, worms and contagious diseases, which are so often called cholera, give raisers a chill whenever they thought comes. It seems if we could not get Sulphate of Iron we could not raise hogs.

A hog yard without a mud hole at some time during the summer is a rarity indeed. We try to keep the mud wallows filled up but in spite of all we do, after nearly every rain quite large wallows exist in some parts of our yards. We all know that the stagnant pool of water is the "home sweet home" of disease germs. If there is a stagnant pool of water anywhere the disease germs that exist there would surprise even the best informed. Every few days we give all hog wallows a liberal dose of pulverized Sulphate of Iron and we rest assured that the disease germs either die or take a vacation. During the summer the hogs take a special delight in taking the mud bath and we have our wallows doctored with Sulphate of Iron so that mange, lice, worms and such vermin don't bother our hogs.

During the summer months it's easy to keep the lice killed this way on hogs that wallow. During the winter we put this Sulphate of Iron in the slup and the sleeping quarters. Of course it's a risky putting the Sulphate in the slup, but we try another method which is about as good and that is, make a mixture of one part galion Sulphate of Iron; 3 gallons of sand; 3 gallons of salt and 3 gallons of wood ashes.

This we keep in a trough where the hogs eat all they want and the cows, horses and sheep like it, too. Sulphate of Iron is death to the insects and fleas, and mosquitoes won't stay where it is used. Rats and mice don't destroy any grain where Sulphate of Iron is used, as they won't stay there.

A hog wallows in a Sulphate of Iron treated pool and then he disinfests the yard wherever the drip falls from his body when he goes away from the pool. We try to keep our hog wallows filled up but they grow just the same. And whenever we want our yards disinfested we put a pail of Sulphate of Iron in the pools and the hogs do the job better than a person could.

This fall the horse disease invaded our herd and one horse died of it. We turned our horses into our hog yards where everyday the hogs were disinfecting by sprinkling the droppings from the Sulphate of Iron wallow. No more horses died. We use several sacks each year and we tell our neighbors.

## ANTIOCH COUPLE MARRIED

Miss Ada Lux and Burtis H. Overton Married Monday Evening

Although the many friends and associates of Burtis H. Overton and Miss Ada Lux have been for some time on the keen watch for some indication of a wedding, the contracting parties very neatly succeeded in "putting one over" and on Monday evening were very quietly married at the home of the bride's parents, Mr. and Mrs. Charles Lux, on Lake street. The ceremony was performed by Rev. Stixrud at 7:30 o'clock in the presence of only the immediate family of the bride and groom. So carefully were the plans laid that not even the officiating clergyman was aware of the proceeding until just thirty minutes previous to performing the ceremony.

The bride was attired in a traveling suit and shortly after the ceremony the young couple slipped away to Lake Villa where they boarded the 8:45 train for Chicago, without anyone even surmising that a wedding had taken place.

The bride is the second daughter of Mr. and Mrs. Chas. Lux and is one of the best known and popular young ladies in the village. The groom is known as one of our enterprising young business men and both have hosts of friends who unite in extending them best wishes for a long and happy life and who also unite in saying that although Mr. and Mrs. Overton got away alright they haven't yet returned.

After a three weeks trip to Florida, North Carolina and Washington they will be at home to their many friends in their new home, on Main street, which the groom recently built and which is now ready for occupancy. The News is among those extending congratulations.

## AS BILLIE SEES US AND AS WE SEE BILLIE

In Saturday's issue of the Waukegan Sun "The News is called to task" misspelling the word "Phillips". Of course we can't spell it right. V acknowledges we can't, and besides don't care a damn if we can't, but it is puzzling us just now is "why to you, Bill, if we can't?" But

ing of spelling, Bill, lets you have a little friendly talk on the subject. We just now have a Monday Sun at hand and at once we notice "diphtheria" and again "diphtheria" in the same article, of course that is a little out of the ordinary. Brother, but if you like it, we're perfectly satisfied, and besides, we know that diphtheria is a hard word. But to continue, in column six a little word of three letters is badly distorted and boldly stands as "The" but right again if you like it, Bill, and besides that one word is always a stickler in the first grade of our schools and once more we know that it is a very hard. Pursuing the matter still further, on page six we see that the "Judge will enter a Decree", well maybe he will and maybe after he has done so he will tell us what it was, for Daniel Webster didn't know, but perhaps Bill he may let you do the explaining. And resuming the subject, we again notice in the marriage license column that "Burtis H. Overton of Antioch" has received a license to wed. Now we fancy you meant our genial druggist, Mr. Overton, but why in tarnation didn't you say so. Far be it from us to criticize, brother, but why don't you spell fifty-five like the rest of us and not as you did in col. 6, page 8, viz., fiftyfive, or did you mean fifty-six? And once more Bill is "que-monia" a new disease, or by any chance did you mean pneumonia.

Now Bill we know that we are only human and prone to errors but we are way out here in the western part of the county and don't amount to much anyway. But You Bill, stop and think of your own position as the (pipedream) Editor of the Waukegan Sun. The only real Newspaper in Lake County, and the only live Daily in Waukegan. Consider we implore you, what is expected of You and then live up to it.

If the Sequence is Maintained. The St. Louis belle who uses her bracelet on her ankle naturally arouses curiosity as to where she would wear an engagement ring.—Washington Post.

### Annual Insurance Meeting

The annual meeting of the Milburn Insurance Company will be held in the lower room of the Masonic Hall at Millburn, Ill., on Saturday, January 11th, 1913 at 10:30 a. m., to receive the official report of the company, for the election of the officers. A full attendance is desired.

## SYNOPSIS.

Richard Lightnut, an American with an affected English accent, receives a present from a friend in China. The present proves to be a pair of pajamas. A letter hints of surprise to the wearer. Lightnut dons the pajamas and late at night gets up for a smoke. His servant, Jenkins, comes in and, failing to recognize Lightnut, attempts to put him out. Thinking the servant crazy, Lightnut changes his clothes intending to summon help. When he reappears Jenkins falls on his neck with joy, confirming Lightnut's belief that he is crazy. Jenkins tells Lightnut of the encounter he had with a hideous Chinaman dressed in pajamas in a messagero from his friend, Jack Billings. Lightnut is asked to put up "the kid" for the night on his way home from college. Later Lightnut finds a beautiful girl in black pajamas in his room. Lightnut is shocked by the girl's drinking, smoking and slangy talk. She tells him her name is Francis and puzzles him with a story of her love for her sister's room-mate, named Francis. Next morning the girl is missing and Lightnut hurries to the boat to see her off. It is accompanied by a husky college boy, who calls him "Dicky," but he does not see the girl. Jack Billings calls to spend the night with Lightnut. They discover priceless rubies hidden in the buttons of the pajamas. Billings dons the pajamas and retires. Lightnut later discovers in his apartment that a busy person in nut-chop-wiskers and wearing pajamas, Jenkins calls the police, who declare the intruder to be a criminal, called "Foxy Grandpa."

## CHAPTER XI. (Continued.)

"Oh, come now, Braxton," said the officer in a tone of disgust, "stop your foolery; you're just using up time. Ain't it enough that you're in this building and in this gentleman's rooms?"

"In his rooms?" exploded Foxy Grandpa. "Why, you lunkhead, this gentleman will tell you I am his room!" He turned to me with a sort of angry laugh.

"Tell him, Lightnut," he rasped. "I've had enough of this!"

The big policeman's features expanded in a grin, while Tim doubled forward an instant, his blue girth wabbling with internal appreciation of the Foxy one's facetiousness; and the janitor snickered.

Jenkins looked shocked. As for me, dash it, I never so wished for my monocle, don't you know!

O'Keefe's head angled a little to the benefit of a surreptitious grin, certainly," he said, his voice tinged with a fine sarcasm; "if the gentleman says you're his friend—"

"No friend of mine," I proclaimed indignantly. "Never saw him in my life."

Instead of being confounded, the old villain fell back with a great air of astonishment and dismay. By Jove, he managed to turn fairly purple.

"What's that?" he gasped strangely and clutching at the collar of his pajamas. "Say that again, Dicky."

I looked at him severely. "Oh, I say, don't call me 'Dicky,' either," I remonstrated quietly. "It's a name I only like to hear my intimate friends use."

He kind of caught the back of a chair and glared wildly at me from under his bushy wintry eyebrows. The beefy rolls of his lower jaw actually trembled.

"Don't you—haven't you always classed me as that, Die-er—Lightnut?" he sort of whispered.

By Jove, the effrontery of such acting fairly disgusted me. I looked him over from head to foot with measured contempt. "I don't know you at all," I said coldly, turning away.

"Ye gods!" he wheezed, clutching at his grizzled hair.

## CHAPTER XII.

I Send a Man to Jail.  
The two policemen shifted impatiently.

"That'll about do, Foxy," growled O'Keefe. "It's entertaining, but enough of a thing—"

But the old duffer caught his sleeve. "Wait!" he panted. "One second—wait—just one second!"

He looked at Jenkins and ducked his neck forward, swallowing hard. "Jenkins," he said with a sickly smile. "You—see how it is with Lightnut—poor fellow. None of us ever thought he would go off that

bad though. But, as it is, I guess you're the one now who will have to set me right with these people. You'll have to stand for me."

Jenkins looked alarmed. He addressed the officers eagerly: "Shelp me," he cried, his glance impaling the prisoner with scorn. "I never see this party before in the ten years I been in New York!"

"Call for the wagon, Tim," said O'Keefe shortly, indicating the phone. "The fool's going to give trouble. Kahoka Apartments, toll them. Hurry; let's get him to the street."

He made a dive at the figure in the chair and jerked him forward. But his grip seemed to slip and he only moved his prisoner a few inches. He tried again with about the same result.

"Get a move on, Tim," he said pantingly. "He's bigger, somehow, than he looks, and awful heavy; it'll take both of us. Get up, Braxton, unless you want the elab!"

The man settled solidly in the depths of the chair. "Club and be banged!" he replied with a snap of his jaw. "I won't go in any dirty police wagon—that's flat! You may take me in a hearse first. Get a cab or a taxi, if I have to go with you!"

"Ganey old sport, anyhow, by Jove!" I thought with sudden admiration. Couldn't help it, dash it! Heart just went out to him, somehow. I gently interposed as O'Keefe prepared to lunge again.

"I'll stand the cab for him, officer," I said with a smile. "If your rules, don't you know, or whatever it is, will allow."

I added in a lowered voice: "Makes it devilish easier for you, don't you know, and avoids such a jolly row. And—er—I want to ask you and your friend to accept from me a little token of my appreciation."

The policeman exchanged a glance with Tim and considered. "Well, sir," he said, "as to the cab, of course if you're a mind to want to do that, it's your own affair."

He turned to his companion. "Just cancel that, Tim," he directed. "Call a four-wheeler."

"Thank you, Lightnut," put in the old man gratefully. "You have got a grain of decency left, by George, after all!"

Meantime, Jenkins was answering my inquiry. "I don't believe, sir, you have a bit of cash in the house. You told me so when you were retelling."

By Jove, I remembered now! The poker game in the evening! I was wondering whether they could use a check, when I spied Billings' wallet on the table.

The very thing, by Jove! Examination showed, first thing, a wad of yellow-backs, fresh from the bank. I peeled off two and pushed them into the officer's hand.

"This belongs to a friend of mine," I remarked; "but it's just the same as my own, don't you know, and he won't mind. Dash it, we're just like brothers!"

A howl of maniacal laughter from the old fool in the chair startled us both.

"Regular Damon and Pythias, damn it!" he gabbled, grinning with hideous face contortions. "One for all, and all for one! And just help yourself; don't mind me. Why—hell!"

O'Keefe prodded him sharply in the shoulder with his night stick. "Stop your skylarking now, Foxy," he admonished angrily. "And come on. Here the gentleman's gone and put up his money for a cab for you and you ought to want to get out of his way so he can rest."

"He's sure been kind to you," supplemented Tim, whose eye had noted the passing of the yellow boys. "Kind!" mocked the old geezer, showing his scattered teeth in a horrible grin. "Why, he's a in-u, a regular Samaritan!"

"No names!" warned O'Keefe, slightly lifting his night stick. "Come on to the street—you seem to forget you're under arrest!"

He added hastily: "And I ought to have warned you that anything you may say, Foxy—"

"Oh, you go to—Brooklyn!" snarled Foxy. "For two plus I'd knock your block off, you fat-headed Irish fool! Think I'm going down to the sidewalk without my clothes?"

"Are your clothes somewhere in this building?" I asked with some sympathy.

He whirled on me sneeringly and jeered like a jolly screech owl: "Oh, no; not exactly in the building—they're on the fleapole on the roof, of course! He-he-he! Bloody good joke, isn't it?"

I sat on the edge of the table wearily, and, catching the policeman's eye, shrugged my shoulders significantly. "You're right, sir," he said apologetically. "We won't fool a second longer. Here, you take that side, Tim. Let's pull!"

"Pshaw, it's not that," the other panted; "it's just the way he's sitting. Why, you can see he ain't so very big." He nodded to Jenkins and the janitor. "Here, you two! Help us, can't you?"

And with one mighty, united heave, they brought the loudly protesting old man to his feet and held him there. O'Keefe faced me.

"Might be well to take a look around, sir, and see if you think of anything else he's stolen, before we take him off."

"Good idea, Lightnut!" Old Braxton stopped struggling and whirled his head toward me, his face almost black with rage. "He, hal. Why don't you have me searched? There's not a pocket in these damn pajamas!"

"Anything whatever, sir, we'll have him leave behind," said O'Keefe.

"By Jove!" I don't know how I ever managed to say it. Fact is, things had just suddenly spun round before me like a merry what's-its-name. For I did recognize something! The old fellow's unabashed reference to pajamas was what brought it to my attention.

"Ha!" O'Keefe nodded. "There is something! Just say the word, sir!"

I looked helplessly at Jenkins, and then I saw that of a sudden he recognized them, too. His eyes rolled at me understandingly.

"What is it, sir?" demanded O'Keefe respectfully. "The law requires—"

I swallowed hard. "It—it's the pajamas," I said faintly.

The old rascal uttered a roar and tried to get at me. "You cold-blooded scoundrel!" he bellowed. "So this is why—"

But here a jab of the night stick took him in the side with a sound like a blow on a punching bag. Words left the old man and he gasped desperately for breath. O'Keefe tried to shake him.

"Did you get those pajamas in here?" he demanded fiercely, and he drew back his stick as though for another jab. But the old geezer nodded quickly, glaring at me and trying to wheeze something.

"That's enough," said the officer. He turned to me. "You recognize them, do you, sir?"

"I—I think so," I stammered, looking at Jenkins, who nodded. "They belong to a friend of mine who—must have left them here."

"I see." He fished out a note-book. "Mind giving me the name, sir? Just a matter of form, you know." He looked his pencil expectantly.

"Oh, I say, you know—" I gasped at Jenkins. "I don't think so—"

"Certainly not, sir," affirmed Jenkins, solemnly looking upward.

"She!" The note-book slowly closed, then with the pencil went back into the officer's pocket.

"Excuse me, sir. If I may suggest—without offense, sir—that you fill it out, I will see that it gets to him."

"Him? Who's him—he, I mean?" "Doctor Splasher, sir, the temperance party I was speaking of. I've already filled out mine, and I'm going to put one in for Mr. Billings when I send the clothes." From the doorway he turned a weebegone countenance toward me. "It's heartrending, sir—"

If I may be permitted to say so—to think of a nice gentleman like Mr. Billings wandering over to the club with nothing on but red pajamas."

"Very good, sir," said O'Keefe, relieved. "We'll see he does that. Come along now, Braxton—shut up, I tell you!"

And with all four of them behind the charge, they managed to rush the loudly protesting old man to the door. "I won't go without my clothes, I tell you," he raged.

But he did. Fighting, swearing and protesting, the jolly old vagabond was roughly huddled into the elevator.

"Good night, sir," called O'Keefe as the four of them dropped downward. "We'll let you know if it seems necessary to trouble you."

Once again inside, Jenkins and I just stared at each other without a word, we were that tired and disgusted. To me, the only dashed crumb of comfort in the whole business was the wonderful fact that Billings seemed to have slept like a jolly Rip through the whole beastly row.

## CHAPTER XIII.

By Jove, it seemed to me I had been asleep about a minute when I saw the sunlight splashing through the blinds.

Jenkins stood beside me with something in his hand. "Didn't hear me, did you, sir?" he was asking. "I said I thought the address looked like Mr. Billings' handwriting. And he's gone, sir."

"Gone?" I sat up, rubbing the sleep from my eyes. I had a befogged notion that Jenkins looked a little queer.

"Yes, sir. He's not in his room, nor in the apartment anywhere."

"Eh—how—what's that?" For Jenkins' hand extended an envelope. "Perhaps you would like to read this now, sir."

It was from Billings—I knew his list in an instant. It was very short and without bending. In fact, above his name appeared just a half-dozen pencilled words, heavily underlined, and without punctuation:

Damn you send me my clothes  
"His clothes?" I looked perplexedly at Jenkins.

He was looking a little pale and held his eyes fixedly to the picture molding across the room. He coughed gently.

"Yes, sir," he uttered faintly; "they're in his room, but he ain't."

He stepped back, leaving something on the stand by my bed.

"What's that?" I questioned in alarm. "Another note?"

## AN UNWELCOME TOPIC.

De Quiz—Paid for your Christmas presents yet?

De Quiz—Say, let's talk about something more agreeable.

Roses in Medicine.

Roses at one time figured prominently in the pharmacopoeia. Pilny gives 32 remedies compounded of rose leaves and petals. Sufferers from nervous complaints used to seek relief by sleeping on rose pillows and one is told that Helogabbus used to imbibe rose wine as a pick-me-up after his periodical gormandizing hours. The flower was also served at table, both as a garnish, in the way parsley is now used, and as a salad, and rose water was largely used for flavoring dishes. Roses as food have gone out of favor among western nations, but the Chinese still eat rose fritters.

Fire in Bank of England.

The first fire within memory occurred at the Bank of England, London, a few days ago. The fire broke out in the southeastern portion of the building. The flooring and joisting were considerably damaged. The outbreak was discovered by the Bank of England authorities and subdued by their own appliances in 30 minutes. A lieutenant and a dozen men of the Irish Guards on duty at the bank, with fixed bayonets, assisted the police in keeping the crowd back from the building.

## THE BEST TEACHER.

Old Experience Still Holds the Palm.

For real practical reliability and something to swear by, experience—plain old experience—is able to carry a big load yet without getting away-hacked.

A So. Dak. woman found some things about food from Old Experience a good, reliable teacher.

She writes: "I think I have used almost every breakfast food manufactured, but none equal Grape-Nuts in my estimation. I was greatly bothered with weak stomach and indigestion, with formation of gas after eating, and tried many remedies for it but did not find relief."

"Then I decided I must diet and see if I could overcome the difficulty that way. My choice of food was Grape-Nuts because the doctor told me I could not digest starchy food."

"Grape-Nuts food has been a great benefit to me for I feel like a different person since I began to eat it. It is wonderful to me how strong my nerves have become. I advise everyone to try it, for experience is the best teacher."

"If you have any stomach trouble—can't digest your food, use Grape-Nuts food for breakfast at least, and you won't be able to praise it enough when you see how different you feel." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are real, true, and full of human interest. Adv.

cured terrible humor on face

PHILADELPHIA, Dec. 6, 1912. "In December 1908, my face became sore. I tried everything that was recommended, and my face got worse instead of better. I spent over \$100 and got no benefit. The face and nose were very red and the eruptions had the appearance of small boils, which itched me terribly. I cannot tell you how terrible my face looked—all I can say is, it was dreadful, and I suffered beyond description."

"I have not gone on the street, any time since 1908 without a veil, until now. Just four months ago a friend persuaded me to give Resinol a trial. I have used three cakes of Resinol Soap and less than a jar of Resinol Ointment, and my face is perfectly free from any eruption, and my skin is as clear and clean as any child's. It is about four weeks since the last pimple disappeared." (Signed) Mrs. M. J. Bateman, 4256 Viola Street.

For over sixteen years Resinol has been a doctor's prescription and household remedy for skin troubles, pimples, horns, sores, piles, etc. Resinol Ointment and Resinol Soap sold by all druggists. For sample of each, write to Dept. 17-K, Resinol Chem. Co., Baltimore, Md.

### CALLED TO HER REWARD

Another Gone From the Thinning Ranks  
of the Early Pioneers

Died at Trevor, Wis., Dec. 28, 1912,  
Ann Garland Booth, wife of George H.  
Booth at the advanced age of 77 years  
on March 6, following.

Mrs. Booth was born in Dorsetshire,  
England, and came with her parents,  
Thomas and Jane Garland to Liberty  
Corners, Town of Salem, Kenosha  
county, in 1844.

Mr. Garland was a successful farmer  
and it was here Mrs. Booth received  
her childhood education. On Nov. 5,  
1854, she was married to George H.  
Booth a young and energetic farmer  
and stockman who came to this section  
in 1840, and still resides at the old  
homestead of his father, Lemuel Booth.

Mr. and Mrs. Booth have practically  
spent a life of 69 years in each others  
companionship, as they were children  
at the same school and in same so-  
ciety. They were as devoted then to  
each other as they have been in the 58  
years of married life. On Nov. 4, 1904,  
this worthy couple celebrated their  
fiftieth wedding anniversary and in all  
their years their lives to each other  
have been one continued pleasant day,  
as no dissensions, no family quarrels,  
no regretted word ever passed between  
them. Her life has been one constant  
ministration to the comfort of others.  
Her highest pleasure was to gladden  
the pathway of all who came into her  
companionship. In sickness and dis-  
tress she was always foremost to give  
comfort and kindly encouragement.  
To the poor she was generous and no  
one not even a tramp, was turned from  
her doors. Her religion was the full-  
fillment of the Golden Rule, and her  
record is the record of a well spent  
life, and as a testimony of this record  
the whispered comment at the funeral  
was that the heaven which she made  
here on earth is the heaven that will be  
hers in the Great Beyond.

Mr. and Mrs. Booth raised no chil-  
dren of their own, but adopted George  
H. Welch, a nephew of Mrs. Booth,  
who died in 1890, at the age of eighteen  
years. This affliction created a great  
sorrow which she carried to her grave.  
Well has she filled the true problem  
of life by making the world better by  
her living in it.

Peace be to her ashes and may the  
light which she set in the window of  
her existence continue to shine on as a  
beacon and guide for others.

And may her deeds of benevolence  
continue to grow brighter and brighter  
as we can now appreciate the beautiful  
spirit that controlled her existence.  
Hard at times seems the ways of God,  
When he takes to himself what he  
has given

When we lay our idols under the sod  
Leaving naught but a thought of  
heaven.

#### Card of Thanks

We, the bereaved family of Mrs.  
Ann Booth, desire to express our  
heartfelt thanks to our neighbors, rela-  
tives and friends for the generous sym-  
pathy and assistance which was so  
freely offered us in this hour of  
sadness.

Geo. H. Booth,  
Anna Burg.

#### Adjudication Notice.

Public notice is hereby given that the sub-  
scriber, executor of the last will and testament  
of Anna E. Kingsmill deceased, will attend the  
County Court of Lake County, at a term thereof  
to be holden at the Court House in Waukegan,  
in said County, on the first Monday of March  
next, 1913, when and where all persons  
having claims against said estate are notified  
and requested to present the same to said Court  
for adjudication.

hows about it and they use it, too. We  
market hundreds of hogs each year.  
We know what cholera is, we have  
been visited by this dread disease sev-  
eral times, but since we have been  
using Sulphate our hog losses from  
disease have been very small.

Hog diseases will come and go but  
the liberal use of Sulphate of Iron will  
save the American farmers millions of  
dollars each year and keep the price of  
pork at a more uniform figure.

The use of Sulphate as a disease pre-  
ventive and a vermin killer is some-  
thing which should be taught in the  
public schools.

Yours very truly,

## THE BIENNIAL TROUBLE

CHICAGO'S REVENUE WOES BE-  
COME TIRESOME.

Legislature Should Revise Tax Sys-  
tem for Whole State—Not  
Merely Chicago.

A much more patient, scrupulous  
and industrious legislature than any  
Illinois ever had in recent years might  
easily lose its patience with Chicago  
coming before it every two years as  
regularly as the governor's biennial  
message, with a plea for relief from  
some monstrosity in the tax laws.

The Juul bill, occasionally takes the  
form of something built exclusively  
for the purpose of confusing and con-  
founding everything to which it ap-  
plies, but the fault is not inherently  
in the law. It is inherently in the  
whole miserable taxing system of Illi-  
nois.

If the state had a more patient,  
scrupulous and industrious legislature,  
Chicago asking for piecemeal reforms  
would be met with impatience, but  
temporary relief would be given, and  
then the tax system would be over-  
hauled from top to bottom and perma-  
nent relief from these confusions  
would be obtained.—Chicago Tribune.

### TAX CHANGE WOULD HELP ALL

Argument Made That Present System  
While Injuring Industries Also,  
Hits Workers.

At present manufacturers in Illinois  
have to pay an unjust double assess-  
ment on their corporate capital stock  
besides paying taxes on plant, machin-  
ery, etc., says the Canton, Ill., Ledger.  
This puts them at a disadvantage  
with competitors in states having  
better laws. What affects them af-  
fects their employees and the com-  
munity. If the manufacturer must  
pay more than a fair amount to sup-  
port the government, and also has to  
cut prices to meet outside competi-  
tion, just that much less is available  
for wages and betterment of working  
conditions, and just that much less is  
available for local circulation.

Again—the present system distrib-  
utes the burden of taxation so un-  
equally that 90 per cent. of it falls  
on land, buildings, machinery and  
merchandise. This affects rents, the  
cost of clothing and even food—the  
very necessities of life. It affects  
everyone.

### A POPULAR NEED.

More than half a million of Illinois  
voters have advised the general  
assembly just elected to submit a  
constitutional amendment permitting  
the classification of property, so  
that it may be voted on at the  
general election, November, 1914.  
It is humanly natural that one of the  
strongest appeals that can be made to  
a man is one which affects his pocket-  
book. The tax laws directly affect  
the pocketbook not only of the tax-  
payer alone, but equally of all con-  
sumers. A wretched system such as  
Illinois labors under, by putting more  
than nine-tenths of the tax burden  
upon visible property (when securi-  
ties, stocks and bonds at just rate  
should be bearing at least 50 per  
cent) puts the burden on necessities.  
The man who by sheer thrift wins his  
home, pays dear for the privilege;  
the landlord is compelled to exact high  
rentals; the shopkeeper who has to  
pay high taxes or high rentals, per-  
force raises his prices, and so it goes.  
It should be the chief concern of the  
legislators this winter to submit the  
tax amendment. If they fail, the peo-  
ple are likely to remember them un-  
pleasantly when taxes and the cost  
of living make their next ascent.

The "Yes" squares on the little bal-  
lot in the late election proved very  
popular. In the out of Chicago coun-  
ties the "Noes" were distanced. On  
the tax reform question the vote was  
339,000 against 97,000; on revision of  
the primary law, 321,000 to 76,000; on  
short ballot, 308,000 to 81,000.

All the legislation approved by this  
referendum is good. There is urgent  
need of a more fair and scientific sys-  
tem of gathering public revenue than  
provided by the existing state laws.  
Those laws are antiquated and unfair  
and need a thorough, revolutionary  
revision that will be in accord with  
advanced scientific methods for rais-  
ing public revenue.

The primary law was an unwilling  
concession of politicians to the peo-  
ple, and of course needs a lot of im-  
proving and such extension as will  
leave absolutely nothing for political  
bosses to determine for the voters.

And the ballot should be shortened.  
All the parties profess friendliness to  
this reform.—Rockford (Ill.) Repub-  
lican.

The inequalities of the general  
property tax must be abolished  
and this cannot be done without  
constitutional amendment. An en-  
forceable statute covering intangi-  
ble forms of personality must  
be had, and this, too, must be  
gotten through a constitutional amend-  
ment.—Lincoln (Ill.) Courier.

The Civic Federation has for years  
made the... malpractice of taxa-  
tion in Illinois a special study. It has  
been a leader in the movement to re-  
form a vicious system... It is  
not easy to amend the Constitution.  
... But until the Constitution shall  
have been altered there can be only  
incomplete and inadequate reform.—  
Chicago Tribune.

# The Great January Clearance and White Sale

## The Clearance Sale

A quick and decisive disposal  
is the purpose of the Clearance  
Sale. Not a department in the  
store has been overlooked in this  
vigorous price cutting campaign,  
for it is our rigid policy never to  
carry over goods from one season  
to another. Every garment,  
every article and every yard of  
merchandise has been recklessly  
slashed in price in order that  
stocks may be disposed of in the  
shortest possible time. No heed  
has been given to original cost or  
former selling prices, it being a  
time when heavy sacrificing is a  
real emergency.

## The White Sale

This White Sale, which is  
destined to gain the attention of  
every lady in this locality, wasn't  
put into operation through the  
mere efforts of a week or so, for  
we were planning and preparing  
for it as far back as last August.  
We gathered, from the various  
markets of both Europe and  
America, this great collection of  
white merchandise, buying care-  
fully and shrewdly and wherever  
an advantage in price was pos-  
sible. We secured savings in  
practically every line and in con-  
sequence are now in a position  
to quote prices which otherwise  
would be utterly impossible.

Sale commences Sat., Jan. 11th and continues one week

Device to Frighten Baboons.

A novel method of trying to get rid of the baboon nuisance in the Graaf-Reinet district, Cape Colony, was recently put into operation by a farmer. This man conceived the idea of getting rid of the nuisance by capturing a full-grown male baboon, dressing him in all the colors of the rainbow, putting a sheep-bell round his neck, and turning him loose to join the troop to which he belongs. The farmer believes that by so doing there will be no baboons seen in his neighborhood for a good many years.

Device to Frighten Baboons.

A novel method of trying to get rid of the baboon nuisance in the Graaf-Reinet district, Cape Colony, was recently put into operation by a farmer. This man conceived the idea of getting rid of the nuisance by capturing a full-grown male baboon, dressing him in all the colors of the rainbow, putting a sheep-bell round his neck, and turning him loose to join the troop to which he belongs. The farmer believes that by so doing there will be no baboons seen in his neighborhood for a good many years.

Popular Sun Bath.

The sun bath is said to be so popular at present in Germany that in several cities one can buy a ticket for a sun bath just as in America one buys a ticket for a bath in the surf. The sun bath ticket entitles the holder to a room for disrobing, a bathing suit and a "place in the sun."

"Wise-acre." "Wise-acre" has its origin in Ben Jonson's retort to a countryman who boasted interminably of his acres, till Ben said: "What signify to us your dirt and your clouds? Where you have an acre of land I have ten acres of wit." The countryman retorted by calling Ben "Good Mr. Wise-acre." This is a good story, but perhaps the term wisecracker comes from the corruption of the German, welsager, a wisecracker.

# TAFT AT OWN 'WAKE'

FAVORS ARBITRATION OF PANAMA CANAL TOLLS IN NEW YORK SPEECH.

## SUGGESTS HAGUE TRIBUNAL

Chief Executive Refers to Roosevelt—Attacks the Enemies He Holds Responsible for His Political "Demise"—Answers Banker Clews.

New York, Jan. 7.—In event the pending negotiations between Great Britain and the United States fail to bring about a settlement, President Taft declared himself here Saturday as unequivocally in favor of arbitrating the Panama canal tolls.

The president's first public declaration of his attitude on the question was made at a luncheon given in his honor by the International peace organization. Later, at the Republican "re-organization" dinner, he presided at what he styled his own political "wake." He made the funeral oration over his political corpse, asked modest praise for his deeds during the time he lived at the White House, recited at length the causes that led up to his "demise" and attacked the enemies he held responsible for his taking off. In the course of this speech the president made his first public reference to Colonel Roosevelt since the campaign, saying that probably 1,000,000 Republicans voted for Wilson "to avert the danger of Roosevelt's election."

The president's remarks on the Panama question apparently were prompted by a declaration in a speech by Henry Clews, banker, asserting that for President Taft's administration "to concede the right to arbitrate the difference would be a splendid achievement," but holding that "we are in the wrong and would most likely be defeated if it should go to the Hague for decision."

Referring to the Panama canal treaty the president, who had said at the outset of his remarks that he rose "with mingled feelings of sorrow and pleasure," continued:

"My friend Mr. Clews differs with me and with the administration in the construction of that treaty. That is all right. I suppose questions before have arisen as to construction of contracts in which good honest people have been on both sides. Now that presents to me a very significant and useful example with respect to arbitration. A good many people are saying: 'Don't arbitrate because you are going to lose. This is our own canal, and while England is making a point of it, England would not fight about it, and therefore why give up when you are not likely to get an arbitration that will be satisfactory to you and your view of the construction?'"

"Now then—even if this view were correct as to probability of result, which I need not admit—is just the time when I am in favor of an arbitration."

Roosevelt Declares Sentence of the Idaho Supreme Court is an Outrage—Seeks Senate Action.

Caldwell, Idaho, Jan. 7.—Col. Theodore Roosevelt, in a telegram to James H. Gibson, Progressive state chairman, which was received here Saturday, extended to R. S. Sheridan, C. O. Broxon and A. R. Cruzen, publishers of the Capital News, who were sent to jail for publishing Colonel Roosevelt's criticism of the Idaho supreme court, his sympathy and admiration. He also communicated with Progressive senators to see if something can be done in the United States senate with regard to what he terms the "outrage."

Colonel Roosevelt's telegram in part follows: "I am confident I express the feelings of every decent American citizen when I say that I am outraged and indignant beyond measure at the infamy that has been perpetrated in Idaho."

"In its essence the action of the court is, in the first place, to deny to a very large minority, possibly a plurality, of the voters of Idaho the right effectively to express their desire as to who shall be the chief magistrate of the nation, and, in the second place, to punish those who protest against this denial of justice and thereby seek to intimidate all men who may hereafter desire to protest against similar outrages."

"No anarchist agitator could ever do anything against the courts comparable in effect to these actions of the highest of one of our state courts."

## LEGISLATOR A SUICIDE

CONGRESSMAN WEDEMAYER OF MICHIGAN LEAPS INTO SEA.

Became Ill, Then Violent, on Trip to Panama—Raved Over Failure to Be Re-Elected.

Washington, Jan. 6.—Representative William W. Wedemeyer of Ann Arbor, Mich., who suddenly became ill and was thought to be insane in Colombia, Panama, at the time of President Taft's recent visit to the isthmus, jumped overboard from a ship on which he had been taken at Colon. His body had not been recovered.

Representative Wedemeyer went to the isthmus with a congressional party at the same time the president visited there. On the voyage from New York he collapsed and was taken first to a sanitarium in Panama and later was put in confinement in a hospital where he became violent and raved about his defeat at the last election. He developed a suicidal tendency and was closely watched. Mr. Wedemeyer's close friends say that a few days before leaving for the isthmus he fell and struck his head on an icy sidewalk. It was not regarded as serious and did not deter him from going with the congressional party.

Ann Arbor, Mich., Jan. 6.—Although it was reported that the mental condition of Congressman William W. Wedemeyer, who, while insane, leaped overboard from a steamer carrying him home from Colon, Panama, was due largely to a fall he received recently in Washington, his local friends and associates attribute the congressman's breakdown to the strenuous campaign he went through last fall, which resulted in his defeat by S. W. Denkes, Democrat, and his enthusiastic congressional work in general.

## HOCKIN ACCEPTS SENTENCE

Supersedes Bond Fixed in Chicago to Await Hearing on Writ of Error—Should One Flee U. S. They Cannot Be Returned.

Chicago, Jan. 6.—Writs of supersedeas were granted Friday by the United States court of appeals in the case of thirty-two of the thirty-three labor leaders convicted of a dynamite plot. All will be released on bonds. That of Frank M. Ryan was placed at \$70,000. The bonds were made on a basis of \$10,000 for each year of the term to which the men had been sentenced.

In fixing the bonds Judge Baker reviewed the evidence and the arguments in the case and stated that the bonds should be large enough to make the persons furnishing them very much concerned in getting the men into court when they are wanted.

The charge is not one in which extradition may be resorted to, he said. If the men should once get out of the country, he declared it doubtful if they could be compelled to return or if the government could punish them. Only thirty-two of the thirty-three committed men were specifically represented, although all were mentioned in the petition. Herbert S. Hockin of Indianapolis had expressed a willingness to serve his sentence and not ask an appeal.

Attorneys for the 33 convicted labor leaders at once took steps to provide suitable bonds for their clients.

The bonds for the 32 men, as fixed by the court, aggregate \$1,070,000. Immediately following the decision of the court of appeals the point was raised by whom the bonds should be approved. It was agreed by the court and the attorneys that Federal Judge Anderson in the district court at Indianapolis should be the judge to approve the bonds.

## ROCKEFELLER WILL TESTIFY

Oil Magnate Accepts Service to Appear Before the Pujos Money Investigating Committee.

Washington, Jan. 6.—The end of the long search for William G. Rockefeller, Standard Oil magnate, wanted as a witness before the money trust investigating committee, came Friday when Chairman Pujos was notified by Rockefeller that he would accept service.

The search has lasted since June, and for the last few weeks has cost the public at least \$500 a day.

It was arranged that Mr. Rockefeller will appear before the committee on January 13.

Rockefeller's decision was communicated to Chairman Pujos through Attorney Samuel Untermyer, counsel for the committee, and House Sergeant-at-Arms Riddell, both of whom are in New York.

Mr. Pujos would not discuss the terms of Mr. Rockefeller's surrender, if terms were made by the Rockefeller lawyers. Details of Mr. Rockefeller's agreement to appear before the committee were left to Mr. Untermyer, although there were frequent telephone conferences between the chairman of the committee and its counsel during the day.

## SKIN ERUPTION ON CHEEK

Kingsley, Mich.—"Last May my thirteen-months-old baby had a skin eruption on her cheek. It started in four or five small pimples and in two or three hours' time spread to the size of a silver dollar. It spread to her eye. Then water would run from the pimples and wherever that touched it caused more sores until nearly all one cheek and up her nostrils were one solid sore. She was very fretful. She certainly was a terrible looking child, and nothing seemed to be of any use."

"Then I got some Cuticura Soap and Cuticura Ointment. She tried to rub off everything we put on so that we would sit and hold her hands for two hours at a time, trying to give the medicine a chance to help her, but after I washed it with Cuticura Soap and then put on the Cuticura Ointment she seemed to soothe her and she did not try to rub them off. It was only a few days before her face was all healed up, and there has been no return of the trouble since. We thought that baby's face would surely be scarred, but it is not." (Signed) Mrs. W. J. Cleland

### LEFT THEM BOTH GUESSING

"Information" Added Little to the Small Amount of Knowledge Young Matrons Possessed.

Two young matrons, who are sisters, keep house in their old family homestead in Kansas City, Kan. Recently their cook left them. While neither had had much experience in cooking, yet they decided to take charge of the kitchen. They bought three cook books. For Sunday evening lunch it was determined to have sauerkraut and spare ribs. Several friends were asked in.

The kraut and ribs were put on the fire to boil. Suddenly it occurred to one of the "cooks" that she did not know how long the combination should cook. She asked her sister. She didn't know. They consulted the cook books. Each gave this instruction: "Cook until done." They were in despair. One of the husbands happened to drop into the kitchen. He asked that something was wrong. He asked, and was told.

"That ought to be easy to find out," he said. He stepped to the telephone and called: "Information, please."

In a moment a gentle voice came over the wire: "This is information. What is it, please?"

"Information, can you tell me how long sauerkraut and spare ribs should boil?"

Without a moment's hesitation the silver voice replied: "Certainly. Cook until they are done."—Kansas City Star.

### He Wouldn't Tell.

The eminent Doctor Llorente, physician to the royal family of Spain, told a reporter in New York recently that he thinks the "American woman" is spoiled.

"In my own country," said Doctor Llorente, "a woman is content to be queen of her household, but here woman wants to be both king and queen."

The doctor, smiling, continued: "I was surprised to hear that in some cases the American husband has, actually, to conceal the condition of his finances from his wife in order to curb her extravagance. Thus the rich young wife's complaint to her doctor, a friend of mine in New York, would be impossible in Spain, where married people are happy companions."

"It is so ridiculous," pouted my friend's young patient, "to call the man at the bank a 'teller.' Why, he won't tell you anything. I asked one the other day how much money my husband had on deposit and he just laughed at me."
